

1. **Problem Framing Document (1–2 pages):** Defines the persona, problem statement, and market research summary.
https://github.com/Purvadeshbhratar/PM_AI_Portfolio/blob/main/Capstone%20Project/Problem%20Framing%20Document.pdf
2. **Pitch Deck:** 5–8 slides covering problem, market, solution, architecture, and roadmap.
<https://gamma.app/docs/Find-Your-A-Player-First-l3vqv4d2onbu4ex>
3. **UX/Wireframes:** Link to Figma/screenshot or the wireframes generated by your AI design tools.
<https://www.figma.com/make/ipU0Yk6RvD9gv7yZPffjWf/Trust-First-AI-Resume-Screening?fullscreen=1&t=ON5Xnhn12frLfucf-1>
4. **Frontend Prototype Link:** A live link of Lovable/Vercel.
<https://match-maven-72.lovable.app>
5. **Backend Agent Workflow:** Visual n8n workflow, plus a brief note on how the agent logic works.
https://github.com/Purvadeshbhratar/PM_AI_Portfolio/tree/main/Capstone%20Project/n8n%20workflows
6. **Metrics & Roadmap Doc (1 page):** 3–5 key success metrics and your product roadmap.
https://github.com/Purvadeshbhratar/PM_AI_Portfolio/blob/main/Capstone%20Project/Metric%20%26%20Roadmap%20doc.pdf
7. **Process & Decision Log:** A specific document highlighting your learnings, prompt iterations, and design choices.
https://github.com/Purvadeshbhratar/PM_AI_Portfolio/blob/main/Capstone%20Project/Process%20%26%20Decision%20Log.pdf
8. **5-Minute Video Pitch:** A Loom/YouTube link combining your slide pitch and the live technical demo.
